Tylö Felicity – the multi shower that knows no limits.

Tylö designers and product engineers have created what must surely be the perfect steam shower – Tylö Felicity. This bathing beauty is our top-of-the-range model, combining contemporary styling and innovative technology in a shower and steam cabinet that sets a new standard for bathing in the twenty-first century.

Using no more floor space than a conventional shower, Tylö Felicity gives you a complete home spa, packed full of attractive features. What do you say to a steam bath, cascade and cloudburst functions, massage nozzles – and, of course, a refreshing and relaxing conventional shower, as well? Tylö Felicity also incorporates a number of patent pending solutions. These include the unique floor which, despite its low step-in height, has a built-in water trap and adjustable wastepipe. And then there's the fold-down seat with an integral backrest that converts in a trice into a bench for two to sit in comfort.

Tylö Felicity has been designed as an exclusive steam shower for domestic use, but it can also be installed in public spas, hotels and wherever else owners wish to let their guests enjoy a little extra luxury.

Smart functions that make everyday life easier and more enjoyable.

All Tylö Felicity models have a built-in steam generator, thermostatically controlled mixer tap, a hand-held sprinkler and control panel, a ceiling with an integrated shower function, a comfortable seat, two gently rounded doors in tempered safety glass and a floor tray with water trap and adjustable wastepipe. You can install Tylö Felicity in corners or as a freestanding cabinet.

The more exclusive models also have adjustable nozzles for body massage, cascade and cloudburst functions and interior lighting that bathes the entire bathroom in a relaxing glow. In these versions the seat back also converts simply into a two-seat bench.

Ceiling shower unit – dual function shower: a circular ceiling shower and relaxing “rain therapy”.

Adjustable massage nozzles for body massage that both relaxes and refreshes.

Water cascade helps relieve the tension in tired neck and back muscles.

In-built steam generator for bathing in clouds of soothing steam. The generator has automatic fill-up, emptying and flushing functions.

Lighting in ceiling shower and cascade casts a pleasant light in the shower.

Hand-held shower and thermostatically controlled mixer tap in the front service column adds the finishing touch – practical when you want

to start the shower without getting wet.

Unique floor tray design that combines a low step-in height with a water trap and adjustable wastepipe. The design also improves flexibility when placing the shower and adjusting the height from above.

Twin glass doors for maximum flexibility.

Easy-to-operate control panel on the front service column for setting time, temperature, steam and lighting.

Finest quality materials – 6 mm tempered safety glass, anodised aluminium profiles in a warm hue and a sturdy, fully steamtight construction.

Elegant interior with shelf compartments and a unique seat that converts simply into a bench for two.

Tylö Felicity Basic shower room.

Extra pleasure comes as standard even with the basic version of Tylö Felicity. This steam shower has a built-in steam generator so you can bathe while cosseted in clouds of pleasant steam. Add a dash of Tylö fragrances and you can also enjoy the refreshing sensation of aromatherapy.

The ceiling shower and the hand-held shower are both operated from a thermostatically controlled mixer tap mounted on the service column – a practical solution when you want to start the shower without getting wet. Here too is the control panel for regulating bathing temperature, time and lighting.

The design is a study in restrained elegance, where the tone is set by the aluminium front column in a warm shade of anodised aluminium. The tempered glass doors have generous aluminium handles which also double as towel rails. The 6 mm thick tempered safety glass in the rear walls contributes to the sturdy, steamtight construction. And, thanks to its twin doors, Tylö Felicity gives you plenty of options when planning a functional bathroom layout.

The unique, patented floor tray construction combines a low step-in height with a water trap and adjustable wastepipe. The design also improves flexibility when placing the shower and adjusting the height from above.

Tylö Felicity Basic comes ready for simple connection to the water supply. For connection to the electricity supply you will need two 10 amp fuses. The in-built generator (max 4.5 kW) is convertible between 230 V~ and 400 V2N~. Recommended water pressure 4 bar and 50 litres/minute.

Tylö Felicity Basic (Art. 9607 4500)

Size: 1060 x 1060 mm, exterior height 2205 mm, interior height 2010 mm.
